

COVID-19 Update from Abell Pest Control

March 16th, 2020

Abell Pest Control is your trusted partner for problem-prevention and we have a dedicated committee taking immediate steps to reduce the risk of COVID-19 transmission. Here are some important steps we've taken:

Mandatory Training being completed by all Abell staff to ensure they are armed with practical knowledge such as hand washing, sanitation and social distancing.

Personal Protection tools such as hand sanitizers and protective gloves have been provided to all Abell employees.

Work Safe means that any Abell employee who is feeling ill will not visit customer locations.

Customer Signatures on Abell Hand-Held devices and printed tickets will not be collected temporarily. This will eliminate the need to pass Hand-Held units and paperwork back and forth, reducing the risk of transmission.

Mandatory Employee Questionnaires are being distributed regularly to monitor the health & wellness of all Abell employees.

If your location has been quarantined or you have any concerns about COVID-19 please e-mail covid19@abellgroup.com
